## Vietnam

## Rice Price - Weekly

**2010**

**Approved By:**

Michael Riedel

**Prepared By:**

Quan Tran

**Report Highlights:**

Export prices for 15 percent and 25 percent broken rice decreased sharply last week due to lower buyer demand; this price drop was reinforced because these types of rice represent a high proportion of the total Autumn crop production in the Mekong River Delta. Export prices for the higher grades were steadier, since demand from African countries did not slow as much.

Paddy prices decreased last week, due mainly to the ongoing harvest of the Autumn crop in the Mekong River Delta.
